EXPERIENCE

+ 4 Years Of Experience

- Nov 2025 - Mar 2026

UIUX Designer

Germany - Remote

Technoleans <https://www.technolean.org>

Worked Remotely With Technolanes On WingoBingo, An Online Wingo & Bingo Gaming Platform Featuring Scheduled Draws, Live Game Shows, User Accounts, Digital Wallets, Rewards, And Supporting Gaming Services. Contributed To The Development, Improvement, And Maintenance Of A User-Focused Digital Platform Designed To Provide A Smooth And Reliable Gaming Experience Across Its Core Features And User Flows.

The Work Involved Collaborating With The Team On:

 - Supported The Development And Improvement Of Platform Features And User-Facing Experiences.
 - Improved Existing Components, Functionality, Usability, And Overall Product Quality.
 - Contributed To Maintaining And Optimizing A Web-Based Platform With Interconnected User Flows.
 - Identified And Resolved Issues To Improve Stability And Reliability.
 - Collaborated Remotely With The Team Throughout Development And Delivery.
 - Gained Experience With User Accounts, Gaming Flows, Payments/Wallets, Rewards, And Operational Processes In A Production-Oriented Online Gaming And Lottery Platform.
- Nov 2024 - May 2025

UIUX Designer

Tehran - Remote

Rayan Sazeh <https://rayansazeh.com>

In My Role As A UI/UX Designer At RayanSazeh, I Was Responsible For Designing And Developing The User Interface Of The Company's Main Product — An Enterprise Management Dashboard.

Initial Research And Competitor Analysis:

Analyzed Several Similar Domestic And International Platforms To Extract Common Patterns, Identify Competitors' Weaknesses, And Uncover Design Opportunities. These Comparisons Informed Strategic Decisions Regarding The Dashboard's Structure And Features

Information Architecture (IA) Design:

Defined The Information Architecture To Categorize Modules, Menus, And Complex Workflows In A Way That Ensured Fast And Unambiguous Data Access

Dashboard UI/UX Design:

Created A Clean And Professional User Interface With A Focus On Readability, Efficiency, And Visual Appeal Using Figma. Optimized The User Experience For Both Desktop Environments And Responsive Layouts

Collaboration With The Development Team:

Worked Closely With Developers To Implement The Designs Effectively And Conducted Regular Reviews To Maintain UX Quality In The Final Product
- May 2024 - Jun 2024

UIUX Designer

Shiraz - Remote

RoomTor <https://roomtoor.com>

I Worked Remotely As A UI/UX Designer For Roomtor, Where I Was Responsible For Designing The User Interface From Scratch, Along With Creating Custom Icons And 3D Visuals. I Also Focused On Enhancing The Overall User Experience And Ensuring A Consistent, Intuitive Design Across The Platform.
